District Conference location: Caloundra

Club President: Phillip Woodhouse

Exchange Student:

Inbound:

Host parents

Outbound: Nina Carter, to Japan

PHFs awarded:

Commitment to the Aviary at Shaftesbury was continued. Thanks to the continued work by Past President Phillip Major, the aviary will become a breeding and sales facility by which it will become self-supporting.

Ian Craig continued his interest in FAIM and became a member of District Committee. The club acted to have all fellows as Life Members of FAIM.

A thorough inspection of our second Hot Food van showed it needed considerable repairs. Rotarian Stewart Bell drew up plans and estimates of cost for a proposed new van. However, the van continued to function and was hired out to several organisations during the year.

Chief fund raising functions were again the June weekend Swap Meet and food stall at the Pine Rivers Show. Another Charity Golf Day was arranged.

Help was given during the year to the Pine Rivers Special School, Shaftesbury Campus (printer), the Leukaemia Foundation, Strathpine and Kallangur Handihomes.

During President Phillip's year, a strong emphasis was placed on Youth Service Activities.

Chiefly through the efforts of Past Presidents Gary Fulton and Neville Williams, another very successful Apprenticeship Awards Night was held in Vocational Services Month of October.

R YLA was again to the fore with awardees being sponsored.

Sixteen Year 10 students applied and were accepted for the Siemens Science Summer School, held in Brisbane for three days during the schools' summer vacation. We were also successful in having David Isaacs from Bray Park State High School chosen for the two week CRA National Science Summer School at the Australian National University, Canberra. Chris Kerrisk, last year's successful candidate attended one of our meetings to tell us of his experiences in Canberra.

Outbound Exchange Student Nina Carter, from Lawnton and St Margaret's School, went to spend a year in Japan.

Unfortunately, despite the efforts of a small core of Rotaractors and Rotarians, the club was not able to attract new members and disbanded.
